Size: 25cm
Coral Reef

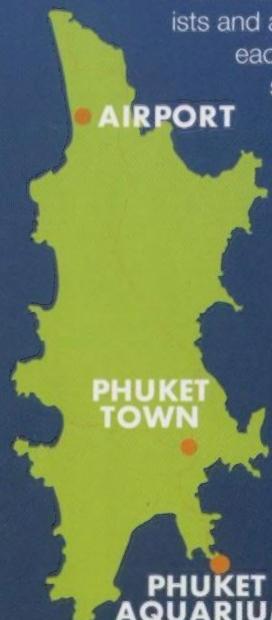

WELCOME

to Phuket Aquarium!

Come and encounter the beautiful creatures from Thailand's lakes, rivers and the Andaman Sea! We take you on a journey through a variety of habitats including mountain streams, mangroves, beautiful coral reefs and even down to the deep sea! Explore our lively aquatic displays and enjoy the interactive exhibits with our fascinating audio and video presentations!

Phuket Aquarium is the only public aquarium in the wider region. It is recognized as a major destination on Phuket Island for both foreign and local tourists and attracts around 300,000 visitors each year! You find us easily at the southernmost tip of Cape Panwa on Phuket Island where we are surrounded by breathtaking scenic bays and islands.

Phuket Aquarium was established in 1983 as part of the internationally renowned Phuket Marine Biological Center (PMBC), a research and monitoring station within the Department of Marine and Coastal Resources (DMCR). The aquarium provides a means to communicate research results and to promote environmental awareness.

COME & EXPLORE

Thailand's Underwater World!

CORAL REEF LIFE

Watch the colourful creatures from Thailand's coral reefs like seahorses, butterfly fish and of course the anemone fish – the movie star from "Finding Nemo".

TUNNEL TANK

Immerse yourself into the ocean in our tunnel tank with Eagle Rays, Leopard Sharks and schooling fish all around you! And don't miss our weekend feeding show!

GIANT GROUPERS

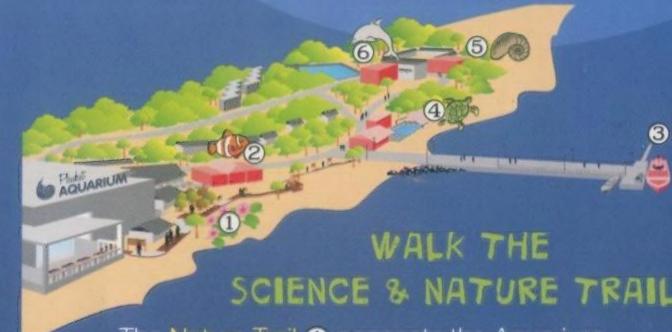

Meet the worlds biggest coral reef fish. They have been living in the aquarium for over 20 years and have reached an impressive size!

EXOTIC SPECIES

Did you ever see the famous Piranha or the Electric Eel which can produce a charge of 600 Volts? Come and see them in our Exotic Creatures Section!

OUR SPECIAL FEATURES

There is a lot more to see!

WALK THE SCIENCE & NATURE TRAIL!

The Nature Trail ① connects the Aquarium exhibition with the spectacular shore at Cape Panwa and includes research facilities of the Phuket Marine Biological Center. So step out from the Aquarium and look for the colourful Kingfisher or the herons hunting along the shore! In our Hatchery ② we keep, breed and raise animals from the ocean. Watch our seahorse, cuttlefish and Nemo babies grow before we release them back to the sea!

Have you ever wished to be on a big ship? Come aboard our 38 m long Marine Research Vessel "Chakratong Tongyai" ③ and talk to the crew. Further

along the trail at the Sea Turtle Pool ④ you can observe turtles recovering from injuries or watch the baby sea turtles in their nursery.

But there is a lot more to explore! Continue to our Reference Collection ⑤ that preserves over 100,000 specimens in its collection or learn about whales and dolphins in the Marine Endangered Species Museum ⑥.

FUN FOR THE WHOLE FAMILY!

Phuket Aquarium is a great place for the whole family and we are constantly adding more features. Come and bring your kids, take memorable photographs at our photowalls or with our unique creatures!
